PROFILE

I am a highly skilled and passionate Frontend Developer with expertise in building dynamic, user-centric web applications using modern frameworks and technologies. With a strong foundation in **React JS**, **JavaScript**, and **TypeScript**, I specialize in creating seamless, responsive, and visually appealing user interfaces. Proficient in **HTML**, **CSS**, **Chakra UI**, and **Tailwind CSS**, I bring design concepts to life with precision and attention to detail.

My experience extends to **blockchain technology** and **Web3 development**, where I have successfully integrated decentralized solutions into web applications, ensuring scalability and security. I am adept at version control and collaboration using **Git**, enabling efficient workflows in team environments.

PROFESSIONAL EXPERIENCE

Frontend Developer   03/2023 – present
EverRise Technologies Pvt Ltd   hyderabad, India

- Developed and maintained responsive web applications using **React JS**, ensuring seamless performance and an intuitive user experience across devices.
- Built reusable, scalable components leveraging **JavaScript**, **TypeScript**, and **modern CSS frameworks** like **Chakra UI** and **Tailwind CSS**.
- Collaborated closely with UI/UX designers to translate design mockups into pixel-perfect, responsive web pages.
- Integrated **Web3** functionalities into applications, such as wallet connections and blockchain interactions, to enhance user engagement in decentralized platforms.

SKILLS

- React JS
- HTML, CSS
- JavaScript
- Typescript
- Chakra UI
- Tailwind
- Blockchain Technology
- Web3
- SASS/SCSS
- Git,Github

PROJECTS

CrossX 🔗   12/2023
Crypto exchange platform
Implemented a revolutionary platform facilitating seamless cross-chain transactions for various cryptocurrencies including Ethereum, Binance Smart Chain, Polygon, Fantom, Avalanche, and Arbitrum. Developed a decentralized finance (DeFi) solution that empowers users to earn yields while transacting directly with other crypto-traders, eliminating the need for centralized pools.

Dstreet 🔗 04/2023

A large marketplace

DStreet is a premier platform revolutionizing the NFT marketplace by offering seamless and secure services for listing, buying, and trading digital assets. Our user friendly interface allows creators to effortlessly list their NFTs, maximizing visibility to potential buyers. With our convenient buy-now feature, users can instantly purchase NFTs at a set price, streamlining the transaction process. We prioritize security, leveraging robust blockchain technology to ensure all purchases are transparent and immutable. Additionally, our unique handshake feature facilitates direct, personalized

transactions between buyers and sellers, fostering trust and collaboration within the community. At DStreet, we are committed to empowering digital creators and collectors, providing the tools and support needed to thrive in the dynamic world of NFTs.

Dvault 🔗 03/2024

Personal token locker

Designed and implemented a secure personal token locker leveraging a dual-key security mechanism for enhanced asset protection. Developed support for Ethereum, Binance Smart Chain, Polygon, Fantom, Avalanche, and Arbitrum, allowing users to lock their crypto assets across multiple blockchain networks.

EverRIse dashboard 🔗 06/2024
